PwC recruitment process

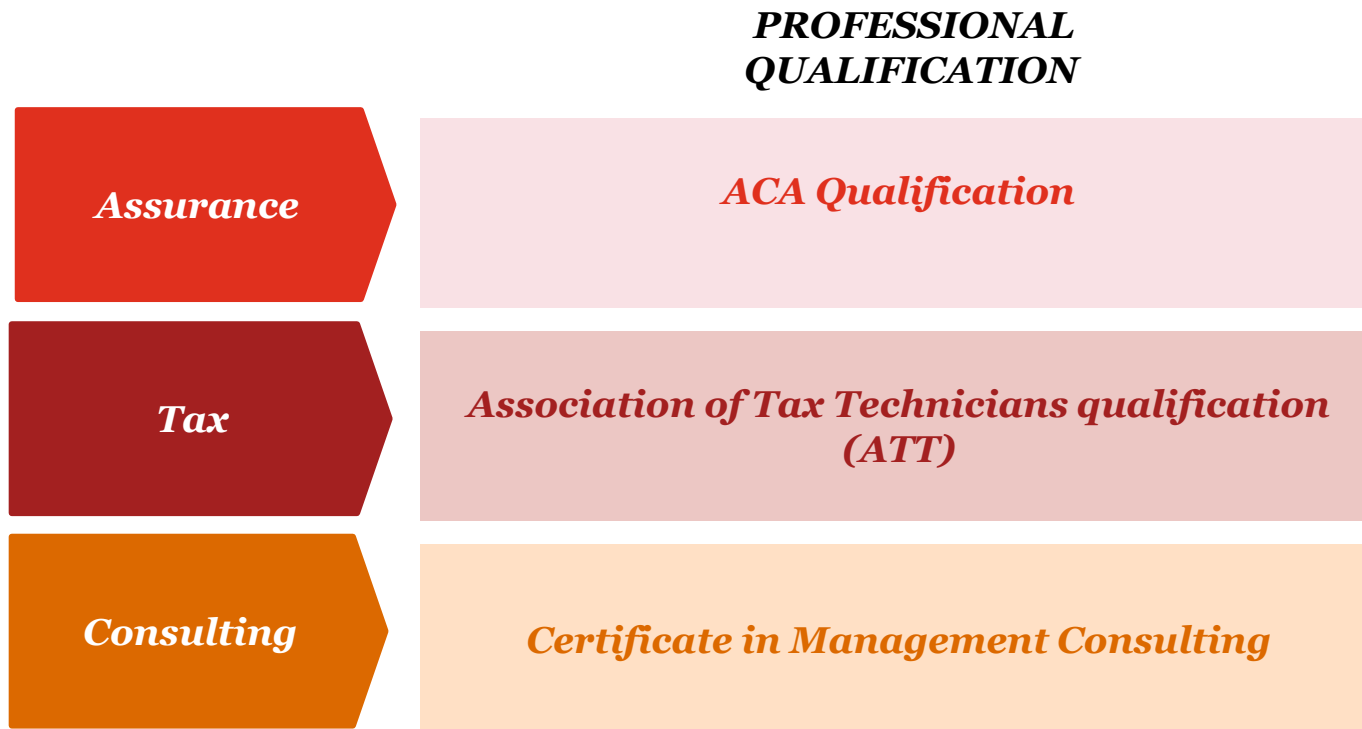

So what would you be doing?

Professional Services Higher Apprenticeship

What qualifications will you get?

All three pathways include minimum requirements with respect to literacy, numeracy, ICT skills, personal learning and thinking skills, and an understanding of employees' rights and responsibilities in the workplace.

What's it like working here?

Working closely with a small team, changing client and team every other week or so.

Time specifically allocated to revision/exams.

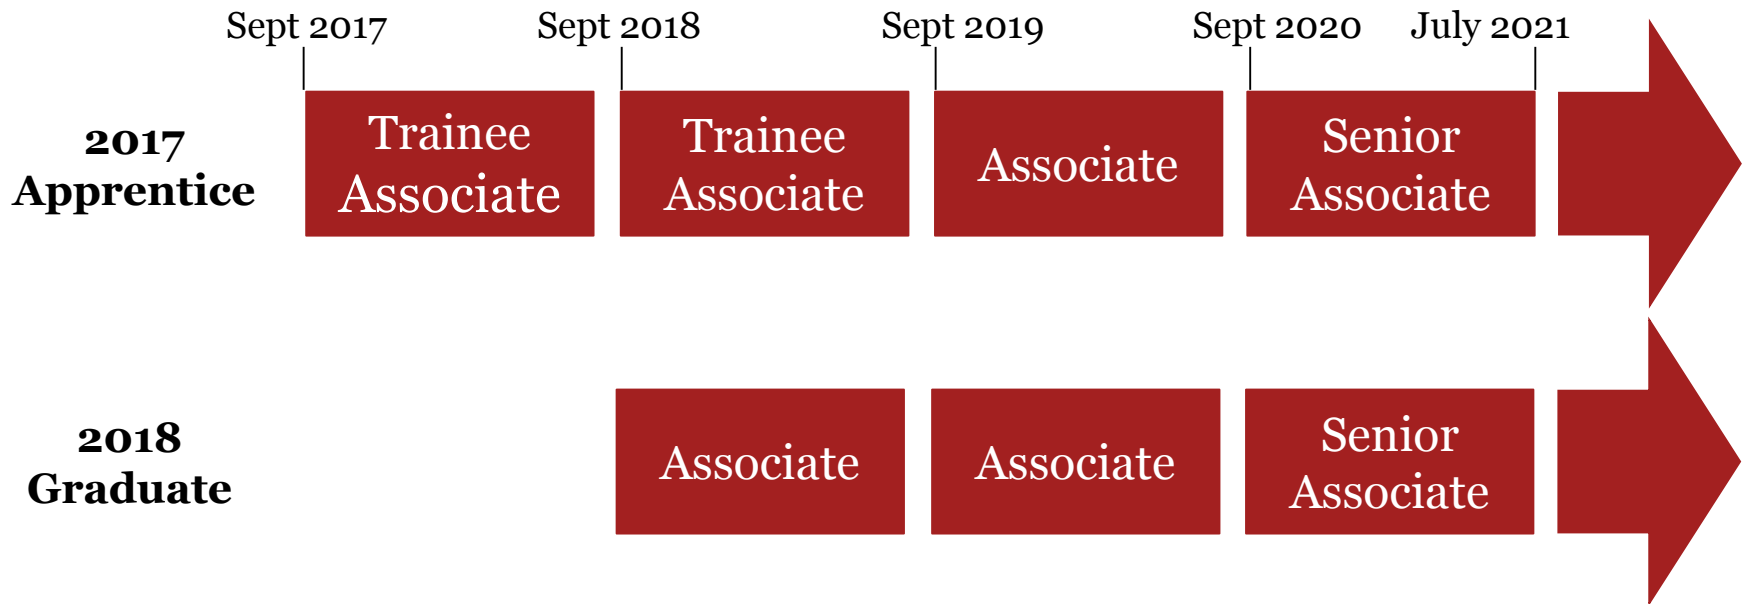

There's lots going on - socials, sports teams, volunteering and recruitment events, as well as team and interest groups.

Time spent studying for exams, working from the office, client site or home.

PwC laptop and phone

Progression

Why choose to join straight from school?

1 ***An alternative route to high-skilled careers in tax, audit, financial advisory and management consulting***

A nationally recognised professional qualification relevant to your role, with study supported by PwC

2

3 ***Work experience with experienced professionals where you get paid at the same time as studying***

A strong foundation on which you can build, through studying towards professionally qualified status

4

5 ***Transferable skills, which help you progress to long term careers in the professions***
